

## Tech Training Plan

1. Tech Help by Appointment (scheduled mostly on Wired Wednesdays)
2. Tech Help Drop In (Wired Wednesdays)
3. Programs/Classes/BYOD/Demos: Wired Wednesday classes, iPad classes (Darrell), afterschool program sessions (mostly Ashley, some Richard). Once Ashley develops a class it can be offered any time.
4. Content on Social Media, Website and Newsletter: reposting helpful articles, blog posts, newsletter articles, online learning opportunities (MOOC's etc.), lists of library materials, tip sheets, videos in the ideal world

**Wired Wednesdays (or whatever we call it):** a regular weekly program for drop in and scheduled tech help + scheduled programs and demos. \$\$ I don't think this can be done without extra Ashley hours. Richard monthly and Darrell occasionally can be invited to do demos or offer drop in help.

### Monthly themes (these are not in order)

Libby (November 2018)

- Demos

Media literacy / Fake News (2 months)

- Identifying fake news
- Staying safe online
- Speaker \$\$ (WHO?)
